

Monitor your Supplier data in the cloud. Now that's smart.™

Vinimaya SmartAudit™

You drive a hard bargain. You deserve a tool that will ensure it gets held to. Reduce your local catalog data management burden and finally feel secure in the cloud.

SmartAudit™, part of the Vinimaya Smart Marketplace Technology™ suite, is a highly innovative software module that enables your company to monitor contracted rates for goods and services -- even when your Supplier data is housed in Direct Catalog Connections (DCC's) or punch-outs. SmartAudit™ will give you the comfort level you need to establish additional Supplier punch-outs and walk away from most, if not all, of your remaining local catalog management tasks.

SmartAudit™ is ideal for:

- Companies currently using or considering deploying Vinimaya Smart Marketplace Technology™ to create a superior end-user shopping experience and a private, virtual Marketplace 2.0 for their Supplier data.
- Companies that want to improve their end-users' online shopping experience by leveraging Supplier websites via punch-outs.
- Procurement & Strategic Sourcing Professionals who want a fast and easy way to audit their contracted rates (local and punch-out) and track pricing trends.

SmartAudit™ allows you to:

Track Price History

- Maintain historical price data for every SKU
- Display price trending in users' shopping carts
- Maintain price velocity & statistical details (average, high, low)

Manage Contract Data

- Allow upload of contract data
- Consider contract price as part of audit and price check
- Perform compliance checks on Suppliers

Run SmartReports™

- Monthly price change report across Suppliers
- Contract compliance summary and monthly details

Vinimaya Smart Marketplace Technology™, available with the SmartAudit™ module, is simple to install, offers dynamic 'touch-less' catalog management tools, and seamlessly integrates with a variety of back-end e-Procurement platforms (such as SAP, Oracle, PeopleSoft, JDE, Ariba, and stand-alone systems). World-class customers including Alcoa, Siemens, McDonald's, Reynold's Packaging Group, and Cricket Communications, have all used Vinimaya SMT™ to improve their e-Procurement performance and enhance their reporting capabilities.

Contact us today to learn more about how your company can benefit from Vinimaya SmartAudit™ and achieve Marketplace 2.0.

Monitor your Supplier data in the cloud. Now that's smart.™

About Vinimaya Smart Marketplace Technology™

E-Procurement benefits are directly related to the number of transactions captured by the e-Procurement system (more transactions = more benefits). Most e-Procurement solutions are under-delivering on the benefits promised due to poor end-user adoption and challenges with supplier on-boarding and catalog data management. Today, as companies look to drive more bottom-line savings from their e-Procurement system investments, Vinimaya Smart Marketplace Technology™ is here to help. Are you ready to supercharge your organization's e-Procurement performance? Create Marketplace 2.0.

Vinimaya's Smart Marketplace Technology™ provides a universal e-Procurement search environment that allows end-users to quickly and easily find the goods and services they need regardless of where their supplier data resides. Vinimaya SMT™ delivers the highest levels of spend capture, easily and efficiently, due to:

- **Market-leading Usability:** Search across multiple catalog sources (supplier punch-out sites, websites, online marketplaces, and internal catalog databases) concurrently and receive aggregated results.
- **Simplicity for Suppliers:** If your suppliers have a punch-out site, website or just a catalog file, they are "Vinimaya SMT™-ready" today.
- **Guaranteed Compliance:** Ability to audit or even overlay (with internally managed pricing) supplier-provided online pricing.

The patented Vinimaya SMT™ product suite is 100% compatible with leading e-Procurement systems, SaaS-delivered, and based on Web 2.0 technologies like meta-search, web service, and intelligent agents.

**Less data management.
More spend under management.**
